

2015 KAAACI & EAAS Joint International Congress (Allergy: Environment, immunity and beyond)			
	May 8, Friday		
08:30~	Registration		
09:00~10:40	Fellow in Training (FIT) Program : Eosinophilia and related disorders 1) Eosinophilia: classification and treatment (Young Ho Kim, Univ. of Ulsan) 2) Drug reaction with eosinophilia (Se Hyo Yune, Sungkyunkwan Univ.) 3) Local and systemic eosinophilia in asthmas (Ju Young Kim, Seoul National Univ.) 4) Allergic bronchopulmonary aspergillosis (Ga Young Ban, Ajou Univ.)		
10:40-11:00	Coffee Break / Poster Session		
11:00~12:00	EAAS Special lecture I 1. The eosinophil: from an endotypic biomarker to a pathogenic player in airway remodeling (Takao Fujisawa, Japan) 2. Air pollution is associated with aggravation of atopic dermatitis (Kangmo Ahn, Korea)		
12:00-12:50	Luncheon Symposium (I): Asia-Pacific Burden of Respiratory Disease : The burden of care related to asthma, allergic rhinitis, COPD and rhinosinusitis in Asia		
12:50~13:10	Opening Remark		
13:10~14:00	Plenary Lecture (I): How allergic march starts (Hirohisa Saito, Japan)		
14:00~14:30	Coffee Break / Poster Session		
14:30~16:00	Innate/adaptive immunity and allergy (EAAS)	Airway Symposium (KATRD-KAAACI)	
	EAAS 2015 Symposium I 1. Roles of invariant natural killer T cells in the pathogenesis of asthma (Young Il Koh, Korea) 2. Innate-type and acquired-type allergy regulated by IL33 (Tomohiro Yoshimoto, Japan) 3. Regulation of T regulatory cells in chronic rhinosinusitis with nasal polyps (Huabin Li, China)	Smoking and airway diseases 1. Impact of passive smoking on childhood allergic disorders (Hyeon Jong Yang, Soonchunhyang Univ.) 2. Smoking affects heterogeneity of chronic airway disease (Yi Yeong Jeong, Gyeongsang National Univ.) 3. Smoking intervention: rationale, evidence and practice (Eun Mi Chun, Ewha Womans Univ.)	
16:00~16:30	Coffee Break / Poster Session		
16:30~17:00	EAAS Special lecture II Recent advances in Food Allergy (Motohiro Ebisawa, Japan)	Particulate Matter particularly matters 1. What is particulate matter? Environmental perspective (Yun Chul Hong, Seoul Univ.) 2. Impact of PM on asthma and allergic diseases (Young Yoo, Korea Univ.) 3. Impact of PM on COPD and respiratory diseases (Woo Jin Kim, Kangwon National Univ.) 4. Personal prevention of health effects of PM (Jun Pyo Myong, Catholic Univ.)	Oral presentation 2 (KAAACI)
17:00~18:20	Oral presentation 1 (EAAS)		
18:20-19:00	Dinner Symposium: Designing an inhaled medicine : AirFluSal Forspiro (Spencer Jones, UK)		
19:00-20:00	Welcome Reception		

May 9, Saturday

	Meet the Experts for Young Investigators			
07:30~08:50	Pollen allergy plants in Korea: Conversation with the author (Chein Soo Hong, Yonsei Univ.)	Epidemiologic studies for allergic diseases in Korea: from cross-sectional study to cohort study (Soo Jong Hong, Univ. of Ulsan)	Functional and anatomical analyses of upper airway (Ji Hun Mo, Dankook Univ.)	
9:00~10:40	Allergy and Environment (EAAS) EAAS 2015 Symposium II 1. Air pollution and asthma (An Soo Jang, Korea) 2. Impact of biodiversity, environmental factors and the microbiome on allergic diseases (Ruby Pawankar, Japan) 3. Pet-keeping and its impact on asthma and allergies among preschool children in Shanghai, China (Yixiao Bao, China)	Best evidence & best practice for difficult case (KAAACI) 1. Severe asthma and ACOS (Sang Ha Kim, Yonsei Wonju Univ.) 2. Recalcitrant chronic rhinosinusitis (Yong Min Kim, Chungnam National Univ.) 3. Strategy for restoring skin barrier defects: from atopic dermatitis to SACR (Hyun Jung Kim, Seoul Medical Center) 4. Multiple food allergy (So Yeon Lee, Hallym Univ.)	New approaches to allergy practice (KAAACI) 1. In vitro approach in drug allergy (Seung Hyun Kim, Ajou Univ.) 2. Impulse oscillometry and lung function evaluation (Man Yong Han, CHA Univ.) 3. Novel approach to allergen immunotherapy (Sang Min Lee, Korea) 4. Biosensor and its clinical application (Bong Soo Kim, KAIST)	
10:40~11:10	Coffee Break / Poster Session			
11:10~12:00	Plenary Lecture (II) : The adverse effect of air pollution on healthy status in Chinese asthmatics (Jinming Gao, China)			
12:00~13:10	Luncheon Symposium (II): A new ICS/LABA with 24hrs efficacy: Relvar Ellipta (Neil Barnes, UK) KAAACI Award Ceremony			
13:10~14:10	Commemoration lecture (Jung Saeng Cho, Hee Chul Eun, Joon Sung Lee)			
14:10~14:30	Coffee Break / Poster Session			
14:30~14:50	Quality of asthma patient management by the primary healthcare providers in Korea (Bo-Yeon Kim, HIRA)	Oral presentation 3 (KAAACI)	Oral presentation 4 (KAAACI)	Oral presentation 5 (KAAACI)
14:50~15:40	Pro and Con Debate Should routine diagnositc tests be performed in chronic urticaria? Pro (Gwang Cheon Jang, NHIS Ilsan Hosp.), Con (Jae Chun Lee, Jeju National Univ.)			
15:40~17:00	Year in Review 1. Year in Review-AAIR (Woo Kyung Kim, Inje Univ.) 2. Drug allergy (Min Suk Yang, Seoul National Univ.) 3. Chronic cough (Jae Woo Kwon, Kangwon National Univ.)			
17:00~	Closing
