

KAAACI Autumn Congress 2011 / Interasma Symposium Program

8:00~	Registration	
9:00~09:10	Opening Ceremony	
9:10~10:00	Special Lecuture: Rethinking severe asthma: Is it all about the triggers (Erwin Gelfand, USA)	
10:00~10:30	Break	
10:30~12:00	Symposium I. Better understanding of asthma	Symposium II. Comorbidities of allergic rhinitis
	1. The role of innate immunity in the mite allergen-induced airway inflammation (Jiu Yao Wang, Taiwan)	1. Allergic Rhinitis and Sleep Disorder (서울의대 한두희)
	2. Genomics and proteomics in asthma pathogenesis (Choon-Sik Park, Korea)	2. Changes in cognitive function and learning ability (경희의대 최선희)
	3. Indoor environment and asthma (Gary Wong, Hong Kong)	3. Impact on sinusitis and otitis media (고려의대 김태훈)
12:00~12:50	Luncheon Symposium	
12:50~13:30	General Assembly	
13:30~14:00	Break	
14:00~15:30	Symposium III. Global burden of asthma and efforts to control	Interest Session
	1. Current state of asthma and allergic disease in Thailand and Southeast Asia (Parkit Vichyanond, Thailand)	1. 만성기침 연구회 주제
	2. Changes in the prevalence of asthma and its risk factors (Soo-Jong Hong, Korea)	2. 두드러기-아나필락시스 연구회 주제
	3. Activities to prevent and control asthma and allergic disease in Korea (Yoon-Seok Chang, Korea)	3. Complementary medicines in allergy (서울의료원 염혜영)
15:30~17:00	Symposium IV: Novel approaches in asthma management	Symposium V: Skin Barrier dysfunction and Itching
	1. Asthma management guidelines: What is the consensus and the difference? (Ken Ohta, Japan)	1. Role of topical emollients in the treatment of skin barrier disorders (서울의료원 김현정)
	2. Regulation of Th1/Th2 balance by glutathione redox (Kunio Dobashi, Japan)	2. Evolving concepts of the pathogenesis of the pruritus (중앙의대 이갑석)
	3. Pathogenesis of Asthma: Implications for treatment and the future (Erwin Gelfand, USA)	3. New insight into treatment of pruritus(가톨릭의대 박영민)
17:00~17:20	Break	

17:20~17:40	정년 기념 특강 (가톨릭의대 박성학)
17:40~18:00	정년 기념 특강 (성균관의대 이상일)
18:00~	Dinner
